# INTRODUCTION

The Vidiachange (LA VIDA) token is a DeFi currency housed in the ethereum blockchain with a number evaluated at 25000 coins created by the company AFRICA SOCIAL SMART (ASS). It is a governance currency of the Africa Social Smart community for an efficient management of the activities of the advertising company Africa Social Smart. The use of this token is effectively based on votes within the Africa Social Smart community for making certain decisions. The token is based on agricultural projects, borrowing projects, lending that connects lenders and borrowers. Users go to coin staking and in return receive rewards for a period of at least 1 year.

## VIDIACHANGE SOLUTIONS

DeFi has undoubtedly changed the traditional financial sector with several novel products and services that eclipse the offerings in the mainstream finance market. These new exciting products have attracted more users into the crypto space who want to grab the opportunity to make extraordinary returns on their investments. Unfortunately, the existing DeFi platforms are unable to deal with explosive demand due to their inherent platform limitations. Moreover, most of these platforms provide one or few applications or products. As a result, investors are forced to constantly shift across different apps to engage in separate activities like staking and lending among others. VIDIACHANGE Finance is addressing these challenges with their one-stop-platform for all DeFi products through which users can access all offerings within the space. To achieve this, VIDIACHANGE Finance is focussed on the following mission and vision:

**VISION**

We work in discretion to liberate the African economy. Everyone should grow simultaneously, we give power to the people by allowing them to do future-oriented investments for financial freedom

**MISSION**

VIDIACHANGE Finance will become the leading financial technology offering a brighter future through generation of trust and cooperation with the users for long term prosperity. In line with this mission and vision, the VIDIACHANGE Finance platform is established on these key tenets that make it the most attractive DeFi protocol.

**VIDIACHANGE has many features which make it an attractive DeFi protocol, below is a list why it is poised to be one of the next big players in the DeFi space.**

### ACCESSIBILITY

VIDIACHANGE underlying infrastructure supports the provision of multiple pools and staking options for any user in a decentralized manner. The platform features an attractive interface that is simple and easy to use with detailed instructions

### NOVEL GOVERNANCE MODEL

VIDIACHANGE has developed an ingenious blockchain based voting mechanism that supports the diverse choices of its decentralized user base. This system enables governance on the protocol with free public voting.

### SECURITY

VIDIACHANGE employs multiple layers of security features that safeguard their users funds and shields the platform from external attacks. It provides security and enhances transparency which is critical in the DeFi ecosystem. Contracts are audited from leading auditing company.

### TRUSTLESS PROTOCOL

VIDIACHANGE is dedicated to upholding the true spirit of decentralization that in turn guarantees trust less transactions that are key in the DeFi space. The VIDIACHANGE smart contracts are **fully audited** and verified to eliminate any doubts about potential exploits or mishandling of users funds.

## STAKING

The breakdown of the speaking mechanism to work as follows

### Fees

Stake Entry fee **1.99%** (used for buyback and burn)  
Unstake fee **1.99%** (used for buyback and burn)  
Minimum stake let lock **72 hours**

## FARMING

Farming is a primary attribute that is accelerating DeFi space. To put it simply, farming is the best way to get rewards with cryptocurrency holding. Farming through VIDIACHANGE allows you to earn rewards by providing liquidity in different pools which details will be released soon.

### Staking Process:

Example: An investor stake 100 LA VIDA tokens in the platform, so the protocol will cut 1.99% from the initial 100 LA VIDA tokens thus leaving a balance of 98.01 LA VIDA tokens in staking for a month, the user will then earn 8.164 tokens on his staked LA VIDA. If the investor decides to unstake after the 1 month period, the system will cut 1.99% unstaking fee from the original 98.01 tokens. This will provide a net return (after fees) of 4.214 LA VIDA tokens.

**Calculation  $(100-1.99)\times1.0733-0.9801=104.214$  L VIDA**

VIDIACHANGE will be releasing the first VIDIACHANGE farming pool in late JULY 2021

# WHY US CHOOSE VIDIACHANGE FINANCE

## EXCHANGE

We firmly believe that all countries need decentralization in exchanges and this must go through a decentralized system to facilitate international transactions. Vidiachange is the decentralized currency that will facilitate international exchanges between the countries of Africa and the world.

## STAKING

Earning interest from staking with 0.27% per day, 8.33% per month, 100% APY. Better yet keeping your money in fiat. Start staking today.

## GOVERNANCE

The project will have a governance system where the investors will share some powers having the governance token and will earn a great profit by leading the project. It a smart contract that we can use for voting. As the token is based on vote governance.

## BORROWING

A community made of borrowers that have instant access to a variety of loans while providing a collateral liquidity.

## LENDING

A community made of depositors and borrowers, depositors earn a passive income by providing liquidity while borrowers have instant access to a variety of loans.

## FARMING

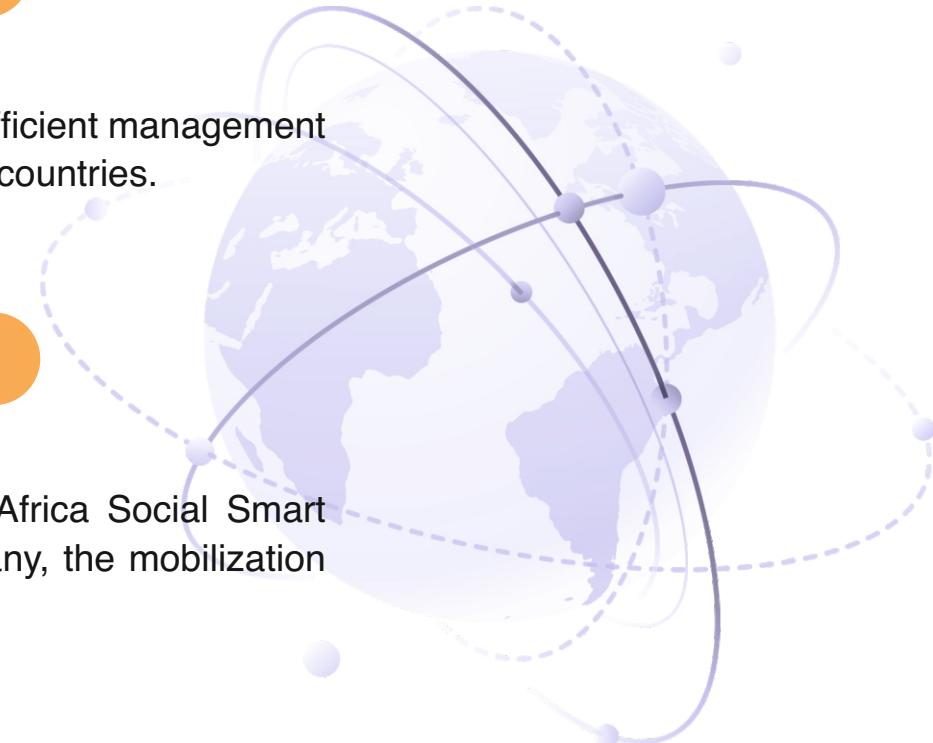

Earn a fees by providing liquidity at uniswap and stake your uniswap tokens to earn farming tokens. Harvest your earnings on every seconds and every stakes and transaction you make a fees will deducted and the fees will be use to buy back LA VIDA and this could pressure buy calls and making the price stable.

## THE MINERS AND THE GOVERNORS OF THE VIDIACHANGE:

They are representatives of the company and ensure the efficient management of activities in these countries. They are present in nearly 40 countries.

## PREFERRED AND PRIORITY SHAREHOLDERS:

They are the co-shareholder members of the company Africa Social Smart having ensured the publicity of the products of the company, the mobilization around the project since its birth.

# ROAD MAP

OCTOBER, 2020

- Project Initiated

OCTOBER, 2020

- Token Creation

NOVEMBER, 2020

- Uniswap Listing  
- Uniswap Sales

DECEMBER, 2020

- Launch Farming

Q1 2021

- Launch Governance

Q2 2021

- Launch Lending  
- Launch Borrowing
